

<Marine Organism Rearing Log>

9 AM, October 14, 2022

Weather: Sunny

Water temperature: 19.2°C

We will have power outage at rearing facility this coming Sunday due to power-supply equipment construction. We have standby power supply for black-out so the flounders might not even notice. We are now preparing reserve power for live-cam for black-out. We found no dead flounder this week.

<Next report will be out on October 17, 2022>
