

<Marine Organism Rearing Log>

9 AM, October 27, 2022

Weather: Sunny

Water temperature: 18.3°C

300 abalones were brought into the rearing test facility following a day before yesterday (October 25, 2022) and put into the tanks. They were delivered from Iwate Prefecture by the cooperative office in Okuma-machi who are rearing marine organisms with TEPCO together. Another 300 abalones will be delivered tomorrow and rearing abalones will be shifted into high gear!
