

<Marine Organism Rearing Log>

9 AM, October 28, 2022

Weather: Sunny

Water temperature: 17.5°C

[Diary of flounders]

Hear me out. I heard someone saying that flounders are so sober.

Well, it's so true that we are protective color and stay still on the bottom but are we that sober?

Now we have gorgeous jade abalones sharing the tanks together, let us shine now!

<No dead flounders in this week. Next report will be out on October 31, 2022>
