

<Marine Organism Rearing Log>

9 AM, November 4, 2022

Weather: Sunny

Water temperature: 17.5°C

We started freeze drying of the samples from a day before yesterday. It is necessary to collect at least 10 ml of fluid to measure radioactivity. This time, we continue freeze drying of the 3 samples each flounders and abalones till next Monday.

<No dead marine organisms are found this week. Next report will be up on November 7, 2002>

Procedure of Freeze-Dry
