

<Marine Organism Rearing Log>

9 AM, April 24, 2023

Weather: Sunny

Water temperature: 18.1°C

There is a custom in Iwaki city to fly “bonito banners” in observance of the Boys’ Day. It is quite a sight to see them flying in the blue sky. Flounders are disposed to lie low on the sea floor and they swiftly attack preys that come near them. The flounders for the training rearing are also quite ferocious when feeding, and it is spectacular to see them sometimes moving in the air with excessive force.
