

<Marine Organism Rearing Log>

9 AM, June 1, 2023

Weather: Sunny

Water temperature: 17.8°C

Last month, media representatives from Ibaraki and Chiba Prefectures on May 16, and from Iwate and Miyagi Prefectures on May 26 visited the Fukushima Daiichi Nuclear Power Station, respectively. We also showed them the progress status of the flounder and abalone rearing test. The visit to the site was covered by their media.

Ibaraki and Chiba media representatives visited the site on May 16
