

<Marine Life Rearing Log>

9 AM, October 17, 2023

Weather: Sunny

Water temperature: 18.1°C

A recognizable characteristic of abalone is the two large antennae on their head, but they also have many other small antennae that allow them to know what is going on around them. Sensors throughout their bodies are constantly working to see if there are any enemies around, locate food, and avoid danger. It's like an advanced car today.
