

<Marine Organism Rearing Log>

9 AM November 20, 2023

Weather: Sunny

Water temperature: 18.5°C

So far, we have talked about the various parts of flounder and abalone, such as gills, fins, eyes, and teeth, but in this log we will take a more collective approach and discuss the face of a flounder. First, let's look at the face of a 20-month-old juvenile flounder. His eyes are heart-shaped, but his appearance is more aptly described as "fearless" rather than "cute."
