

<Marine Organism Rearing Log>

9 AM, December 19, 2023

Weather: Sunny

Water temperature: 18.0°C

This log has covered a series of difficult topics recently, such as parasites and tritium concentrations in muscle, etc., so, today we will show you some treasured photos and videos of flounder from our archives that we haven't had the chance to introduce so far. Here are some photos and videos of flounder in the training and rearing facility that does not have ALPS treated water.
