(Note 1) O.OE±O is the same as O.O x 10^{±O}.

The sampling could not be performed due to the snow.

(Note 2) The figures written next to "<" indicate the detection limit when the measurement result is below the detection limit.

(Note 3) "ND" indicates that the measurement result of y nuclides other than the major 3 nuclides are below the detection limit.

(Note 1) O.OE \pm O is the same as O.O x $10^{\pm O}$.

The sampling could not be performed due to the snow.

(Note 2) The figures written next to "<" indicate the detection limit when the measurement result is below the detection limit.
