

Outline of the Mega Solar Power Generation Project at Yamanashi Prefecture

1. Solar power generation facility overview

Plant name		Komekurayama Solar Power Plant
Location		Shimomukoyama-cho, Kofu, Yamanashi (property owned by Yamanashi Prefecture)
Specifications	Solar cell output	10,000 kW
	Estimated annual power production	Approx. 12 million kWh
	Estimated CO ₂ emission reduction	Approx. 5,100 t
Schedule	Start of construction	August 2010
	Start of commercial operation	January 2012 (Approx. 5,000 kW sometime in FY 2011 and 10,000 kW by the end of FY 2013 in the initial plan)

2. Solar power PR center overview

Operator	Yamanashi Prefecture
Location	Shimomukoyama-cho, Kofu, Yamanashi
Opening	January 2012 (slated)
Description	A facility to promote solar power generation to be built within the power plant premises
