

## Overview of the Offshore Wind Farm Project off the coast of Happo Town and Noshiro City, Akita Prefecture (Tentative title)

### ● Project Details

Title	Overview of the Offshore Wind Farm Project off the coast of Happo Town and Noshiro City, Akita Prefecture (Tentative title)
Motor type	Wind power (offshore, bottom-fixed)
Output	Max. 396,000kW
Location	Off the coast of Noshiro City and Happo Town, Yamamoto County in Akita Prefecture
Commencement of operation	After 2027 (planned)

### ● Planned area of development

#### ◆ Planned area of development

- Off the coast of Noshiro City and Happo Town, Yamamoto County in Akita Prefecture

#### ◆ Selection of planned area of development

The coastline has been set as the border of the development area in consideration of the “Regions for the Promotion of Ocean-based Renewable Energy Power Generation Facilities (draft)” presented at the third meeting of the Council for areas offshore of Happo Town and Noshiro City, Akita Prefecture as well as the installation of undersea cables and the point at which those cables come ashore.

The area of installation of the wind power turbines begins more than 1.1 km from the coastline (at a depth of more than 10 m).

#### ◆ Area of the planned area of development

- Planned area of development: approximately 46 km<sup>2</sup>
- Wind turbine installation area: approximately 24 km<sup>2</sup>
